

**Salt.**

**Used daily by every human and animal in existence.**

**You can be salty, you can feel salty, you have salty inside you, it's on every table you eat at. The word salary originates from 'salarium' which refers to salt money. Once a high valued commodity as expensive as gold, used to barter, trade and pay roman soldiers. It's destined to make the biggest return in crypto.**

## INTRODUCTION

We're excited to bring you \$SALTY.

Salt is everywhere, from your anatomy, to your diet, to Himalayan lamps. Salt has been a staple for hundreds of years. Once valued as highly as gold, traded as a currency you cannot deny that salt has formed and continues to be involved in your everyday life, even in just that language you use!

The lore surrounding Salty dates back further than the roman times in terms of currency but we're bringing it back in the form of crypto.

Salty has the power to branch off into various narratives, including currency, Himalayan salt rocks looking to climb the tallest mountains, to sipping salt rimmed margaritas and so much more.

This versatility creates an unlimited number of opportunities to target various communities and investments by appealing to specific personal interests.

## OUR MISSION STATEMENT

You deserve more. Our mission is to redefine expectations and set new standards in the crypto space where none existed before. \$SALTY seeks to appeal to none crypto users with various content prior to introducing educational content aimed to onboard those induvial and make introductions into various products and services to generate income which will be directed back into the project.

## THE \$SALTY TEAM

Our team consists of highly talented, intensely driven individuals with extensive experience in building successful businesses and we are extremely connected in the traditional business and crypto space. The team refuses to be another coin where the main concern is watching the chart 24/7. Collectively we are unstoppable and with our team members residing in several different time zones throughout the world, we have the ability to work around the clock. Just like crypto is 24/7, we are 24/7.

## WHICH CHAINS?

\$SALTY has initially launched on the Solana (SOL) network due to its low-cost transactions which is widely considered to be the most appealing to newcomers which is part of the wider \$SALTY business model to attract further passive incomes for the project.

Whilst leveraging Solana's high throughput and low transaction fees initially this does not preclude our visions to expand \$SALTY in the future.
